Venue: St. Xavier's LP School, Kothavara

Activity: Tapioca cultivation in the free land at the premises L.P School .

Resource Person: Programme Officer

Theme: "Earth-friendly farming, now and forever"

Report

This initiative of tapioca cultivation at free land available at L.P School, Kothavara was undertaken with agenda of social welfare. The reaping benefit from the tapioca cultivation was planned to be used for some social welfare activities. The stem cutting of tapioca was used in nearly 40 heaps of sand. Tapioca is a staple food in parts of kerala. Kappa, as its called locally in Malayalam is part of the breakfast cuisine in parts of kerala and is consumed with fish curry! While some parts of kerala relish the dish, half of kerala do not consume kappa as often. Mashed Steamed Tapioca dishes are common in most parts of kerala and there are a range of recipes available which is quite good if you have the palate for it.

The output of Tapioca cultivation was expected in month of June 2023, which may approximate to 250 to 300 kgs , @ Rs 30 per kg in open market.
