

## ACTION TAKEN REPORT

We understand the importance of addressing student's concerns and are committed to creating an educational environment that fosters growth and success. We will continue to monitor and adapt our approach based on ongoing feedback taken from the Students, Employers, Alumni, and Teachers. It has helped to propel our performance in a better fashion and created a student friendly atmosphere in the campus. Following are the measures adopted by the institution to recompense the grievances.

1. The financial condition of the Government has imposed many restrictions in appointing non- teaching staff which has adversely affected the periodic maintenance of the existing facilities. The College PTA has appointed two menial staffs on daily basis to clean the wash rooms and lavatories. Teaching and non-teaching staffs are deputed to make periodic surveillance of the lavatories and rest rooms.
2. We have represented the Government officials and the RTO to issue new bus permits or to extend the bus routes to mitigate the inconvenience of the students. Only a few buses ply through the roads to our institution. This is a major issue which goes unattended even after repeated reminders.
3. We have successfully installed LCD projectors at least in our Seminar Halls and Common Media Room despite our financial stringency. The Management is doing yeoman service to upgrade the ICT facilities.
4. Implemented measure to enhance food quality and maintain higher standards of hygiene in the canteen.
5. We have appointed a Physical Education Instructor (Guest Faculty) against LWA vacancy to give necessary physical training to the students and continue the good work we have been doing in the past years. The Council and the PTA are on constant vigil to promote physical health and fitness among students. We plan to expand our sports activities with Inter Collegiate Tournaments to encourage student participation in sports.
6. Undertook various Initiatives to enhance the overall campus ambience, including landscaping, Infrastructure improvements and proper

maintenance of playground providing systematic drainage system to avoid water logging.

7. Shortage of funds and lack of time restricted the extra- curricular activities to certain extend. The management and the staff have now provided ample opportunities to the students to showcase their talents. The College represented three group events and several other individual events at the University Youth Festival and bagged many grades in the individual events.

We always appreciate the valuable feedbacks from different stake holders and these actions are a testament to our commitment to provide a conducive learning environment. We will continue to shine for excellence and address any further concerns raised by our wards, alumni, employers and faculty.
